*Child Care Resource & Referral ~ Metro does not recommend or endorse any child care environment over another. We cannot guarantee quality and we accept no responsibility or liability for them. We believe that parents are in the best position to observe and select the site that best meets the needs of their child.*

*Nannies and baby sitters are not required to be licensed by the state. Regardless of the type of program you choose, or its licensing status, we encourage you to carefully follow the suggestions outlined in "[Your Guide to Choosing Child Care](#)" and ask lots of questions to determine if the quality of the environment is right for your child.*
